

Sorting Cereal

www.kelloggs.co.uk
www.aldi.co.uk

Take a cup of multi-shaped cereal (don't eat any or your sorting will get in a muddle!)

1. How many of each shape do you think are in your cup of cereal? Write or draw your **estimate** on the sorting sheet.
2. Now sort your cereal into shapes and count the number of pieces in each group.
3. Write or draw the actual number of pieces next to your estimates on the sorting sheet.

Why's this maths?

You are estimating, sorting and counting and recording what you have found out!

Sorting Sheet

Use your estimation and counting skills to sort a cup of cereal:

	I estimated	I counted
