

Codebreaking for Spies

Are you up for a secret mission?

Your mission – should you choose to accept it – is to help conserve forests, the animals in them and help the people who live near them as part of World Wildlife Day.

3 of our trusted agents have sent us messages to help with our mission – see them on the next page...

Use the ciphers on this document:

[Codebreaking-Activity-Sheet.pdf \(mathsontoast.org.uk\)](https://www.mathsontoast.org.uk/Codebreaking-Activity-Sheet.pdf)

Then have a go at making your own secret message in reply, using the same coding system, or making up your own – you could even use the cipher wheel to keep changing your code and keep your messages really secret!

Can you crack the codes to find the important messages below?
